Ms. Sophie Monpeyssen  
Co-Founder  
Le Ciel Foundation

August 30, 2018

Dear Ms. Monpeyssen,

The Garden of Light, an online home for the emerging global spirituality, is aligned with all heart-based efforts to activate our shared spiritual impulse in service to humanity. In the urgency of the present moment, it is perhaps most critical that we heal our modern world's sense of separation from the natural environment that gives us life.

Thus, we are profoundly grateful to Le Ciel Foundation for its dedication to gathering indigenous wisdom keepers and visionary thinkers to explore solutions-based approaches to tackling the great challenges of our time.

The Garden of Light warmly endorses the work of the Twelve and Above and Le Ciel Foundation in convening the Holistic Visions symposium to support regenerative efforts for humanity and our planetary home from our deepest wisdom roots and our highest collective vision.

We look forward to further ways to move forward in a spirit of collaboration toward a shining future.

Warmly,

Rev. Deborah Moldow  
Founder and President
